

## Product Information & Technical Data Sheet

Resonate ChipBoard's are 1200mm by 500mm in size, making them ideal for carrying up staircases and fitting through loft hatches.

The boards have a tongue and groove design on all 4 edges making them high strength, with a tight and easy fitting joint.

Boards are suitable for domestic, new build, refurbishment and commercial applications.

### Key Benefits

**P5 structural grade, moisture resistant chipboard**

**1200 x 500mm, ideal for carrying up staircases and fitting through loft hatches**

**22mm thick instead of 18mm, structurally stronger**

### Dimensions

**Widths Available**  
500mm

**Lengths Available**  
1200mm

**Thickness' Available**  
22mm

**Structural Grade**  
P5, moisture resistant

**Weight per board**  
8.5kg per board

**Sheets Per Pallet**  
Maximum 100 per pallet

**Dimensional Tolerances**  
(+/-2mm)
